W YORK JOURNAL AND ADVERTISER.

W. R. HEARST.

IN AMERICAN PAPER FOR THE AMERICAN PEOPLE

Will They Carry Alger?

Do the Republican leaders think they can carry the load of Algerism through the campaign? Such a thing seems incredible, but there are indications that such an attempt may be made.

The Republican State Convention of Michigan has just adopted a platform in which it

We indorse our honored Secretary of War, and commend his conscientious, patriotic and unselfish devotion to the honor of the nation and the welfare of the army. We denounce the unjust attacks made on him and offer him our undivided support and confidence.

In the New Jersey State Convention yesterday Attorney-General Griggs declared that "for rapidity and faultlessness of execution" our operations in the Spanish war had "never been equalled since war's began upon the earth," and added:

1 do not speak of that other Item which certain newspapers and others trying to make the leading issue of the Democratic campaign. Forgetting the glory, the achievement, the success with which an army of 200,000 mer was raised out of nothing and a hostile nation almost wiped out in ninety days, they are hovering like buzzards over the battlefields and hospitals and graveyards, looking only for the misery and suffering and death which are inevitable in war. Surely the Democratic party has not been reduced so low in its supply of proper subjects for political division as to need to rely upon yellow fer and yellow literature.

But while his infatuated partisans are exulting in their shame Secretary Alger is having a more unpleasant experience. He is hearing some plain truths, not from "sensational newspapers," but from responsible army officers of high rank. When the Secretary had assembled the commanding officers of General Sanger's division for an exchange of compliments, military conventionalities were thrown aside, and the shameful facts about the mismanagement at Chlckamauga were thrust into his reluctant face. Said General

Sir, your chief cook and bottle-washer down there (I refer to Dr. Hulde-

korper) was nothing but the very rankest sort of veterinary surgeon. He did not know the meaning of disinfectant. I gave orders for materials and could not get what I wanted. I sent requisition after requisition, and none of them was received

Finally I sent a tart request, and received the reply that such stuff was

This horse doctor, who did not know the meaning of disinfectants, we's intrusted by the Administration with the lives of from 35,000 to 50,000 American soldiers. He was given that position by political influence over the heads of men abreast of the latest advances of medical and surgical science.

Brigadier-General Wiley told the Secretary that "the neglect to furnish supplies was criminal," and cited instances in which the lings most essential to the health of the soldiers were refused by War Department. "You worked the men to death at Chickaga," continued the General.

ay, sir, these men were drilled from five to six hours each day in the un, and when they fell there were no stretchers, litter bearers or amices to carry them away.

hundreds of cases the poor fellows were forced to lie in the broiling without attention. It was criminal negligence not to have a sufficient her of litter bearers and stretchers.

he reason these men were not on hand was that every available man ctor or nurse had been taken away from the commands and placed at division hospital.

'f we had a man at Chickamauga who understood his business," med Colonel Leonard, "and not a veterinary surgeon, we might ad a healthy camp. The horse doctor you had down there, Mr. ry"- The disclosures that were about to bubble forth were

by the suppression of Colonel Leonard at this point. And to all this Secretary Alger offers the astounding defence: I want to say that had the War Department been acquainted with the

nditions said to have existed at Chickamauga, the troops there would have more comely and appropriate building for the purpose been moved long before they were. We received only good reports at Washington from the commanding officers, and it was supposed that the outside reports were exaggerated.

That is to say, Mr. Alger's official machinery is so hopelessly in- erected and maintained by Mr. Nathan Straus, where a large glass sational press," but for whose interference the Secretary would charity has been an inestimable blessing to thousands during the not infrequently land stakes worth from \$5,000 to \$50,000. never have known of a state of affairs in his department that was heat of Summer. carrying misery and death through our armies.
